What Wash N Press Stands For

Three pillars that shape every brand decision

Water-Conscious

Every drop counts. Our eco-machinery recycles rinse water, reducing fresh-water draw by up to 60% vs conventional laundry.

Women-Led

Each society unit is operated by a two-member women's team — hyperlocal livelihoods, within walking distance of home.

Community-First

Not a distant vendor. Wash N Press lives inside your society, trusted by your RWA, operated by your neighbours.

The Spinning Drop

A water droplet forming a laundry drum — sustainability meets service

wash n press

Icon

Circular drum + embedded water droplet. Spins 360° as a loader animation in-app.

Wordmark

"wash" in Aqua, "n" in Mint accent, "press" in Deep Teal. Cambria serif — trustworthy and approachable.

Works on

App icon, letterhead, society signage, laundry bags, delivery boxes.

Avoid

Never use on busy photographic backgrounds. Always maintain clear space = icon width ÷ 4.

The Wave Mark

A fluid wave forming a "W" — movement, water, and cleanliness in one mark

From Identity to Launch

Recommended actions to take the brand from concept to live

01

Finalise Logo

Choose between Concept A, B, or C. Commission a vector artist to build the full SVG mark with clear-space guidelines and all approved colour variants.

02

Register Trademark

File WnP wordmark + mark under Class 37 (laundry services) with India's Trade Marks Registry. Simultaneously register the .in and .com domains.

03

Brand Guidelines

Compile a single PDF covering: logo usage, colour codes (HEX/CMYK/RGB), typography scale, photography style, and icon library.

04

Build Website MVP

Homepage, Plans, For Societies, and Contact pages. Static site (Next.js) deploying to Vercel. Link to app store pages once live.

05

Society Launch Kit

RWA pitch deck, printed signage templates, laundry-bag artwork file, and welcome-letter template — all using the finalised brand.
